- Pills are NOT generally water soluble, are usually packed with chemical fillers and coated with shellac type coatings. They are therefore difficult to break down and studies demonstrate they may achieve only a 10-30% absorption level.
- **VIBE** - the liquid nutraceutical representing a major breakthrough in natural nutritional science.
- VIBE puts back into the body the essential minerals no longer obtainable in adequate quantities from the food chain. So important because our bodies do not make minerals.
- **VIBE** provides 11,000 mgs of nutrients per serving thus enabling the body to be nutritionally replete daily.
- **VIBE** has a guaranteed antioxidant rating of 100,000 and is extraordinarily effective at quenching free radicals, the body's number one enemy
- All the ingredients are water soluble and so sized that they will be assimilated into the cells moments after ingestion and achieve an approximate 98% absorption level.
- **VIBE** is the body's fuel and will help people to obtain and maintain an optimum consistent quality of life and address any number of the health challenges which are subject of many column inches in the Press every day.
- **VIBE** is a brilliant liquid health insurance policy of excellent value for money at just over £1 per day.
- **VIBE** is for everyone from the age of 3 years onwards.
